Interconnection Service – Pre-application Request

I am considering the installation of a ____ kW distributed generation system that will require interconnection service with AEP Ohio's distribution system. I am requesting a pre-application report for the site listed below. I understand the pre-application report will only include pre-existing data that is available as of the date it is prepared and that AEP Ohio is not obligated to conduct a study or other analysis in the event the data is not readily available. I also acknowledge the data is subject to change and may not be applicable at the time an interconnection service application is submitted. Enclosed is the \$300 nonrefundable processing fee.

Please proceed with preparing the Interconnection Service Pre-application Report.
