

Efficient Financing for Business

Affordable financing for efficiency projects of every size and type.

This innovative program provides custom financing options to help fund building updates, generate operating cost savings and boost cash flow.

Available for participants in our Efficient Products for Business, Process Efficiency, Data Center and New Construction/Major Renovation programs.

For projects large and small, public and private

From office buildings to retail stores, universities to hospitals, government offices to manufacturing facilities, our program finds optimal matches between financial lenders and efficiency projects through a partnership with HBC Energy Capital, a division of the National Energy Improvement Fund (NEIF).

Fast answers with world-class support

Our program provides competitive rates and multiple financing options for businesses large and small. Create a custom finance proposal in 2 minutes or less and easily take your project from proposal to funding, and all the way to completion. And, it's backed by world-class service from HBC Energy Capital.

- 1) Match - In 2 minutes or less, create a customized financing estimate and proposal (<https://hbc.softlink.solutions/newestimate>). HBC Energy Capital uses its industry-wide relationships and leading edge lender-partners to bring you the best rates and terms to optimize your project.
- 2) Offer - With the click of a button, put the right monthly payment options in front of your customer in an easy to understand, one-page proposal.
- 3) Support - The online portal takes your project through the finance process from proposal to approval and all the way to funding. Every step is designed to be quick, easy, and transparent. HBC Energy Capital will keep you and your customer informed every step of the way.

- ### Next Steps
- Step 1** Review this offer and either click the I am Ready to Apply button in your email, or notify your contractor that you want to move forward with this offer.
 - Step 2** You will receive an email with a link to a secure online application within one business day. Fill it out for financing approval.
 - Step 3** Receive notification of financing approval, sign closing docs, and begin equipment installation.

* This finance estimate uses projected energy and maintenance savings data provided by your contractor. Many factors can affect the energy savings estimates as well as the realization of these estimated savings once the project is installed. HBC Energy Capital encourages the customer to review these numbers with their contractor.
